

SIMPLE TO OPERATE, CLEAN AND MAINTAIN

Slimmate Handwash:

This station hugs the corner of your restroom to conserve valuable floor space and still has a generous amount of fresh water for a high number of washes per fill. The foot peddle is positioned so users can operate the unit easily and get a thorough washing with limited pumps.

Slimmate II Full Forearm Hand Wash:

The unique 18 inch basin on this unit provides users space to wash from fingertip to elbow easily and without a mess. Ideal for construction sites where workers are exposed to materials that cause skin irritation.

TIME TO UPGRADE?

Turn your Slimmate into a full forearm handwash.

First among in-unit hand wash stations are the Slimmate and Maxim 3000. With Satellite's unique full forearm wash basin or standard basin, your portable restrooms will be equipped with the most advanced wash stations available.

The Slimmate fits neatly into every major brand of restroom, including Satellite's own Tufway. These stations are compact, yet deliver a high amount of washes per fill. The Maxim 3000 Full Forearm Handwash, created exclusively for the Maxim 3000 restroom, is designed to fit the interior shape of the unit for the most appealing appearance and to provide the greatest amount of floor space.

Both the Slimmate and Maxim 3000 are water-efficient to prolong the time between fills. Spray nozzles

deliver a wide, fan shaped spray that wets hands quickly to reduce the number of pumps per wash. They also come with a polished wash basin that is easy to clean and retains its great appearance for many years. In all, Satellite wash stations provide operators and users a simple and effective solution to proper hygiene.

SLIMMATE HAND WASH / ACCESSORIES

DESIGNED FOR THE MAXIM 3000 RESTROOM TO MAINTAIN ITS SMOOTH, SLEEK INTERIOR

Maxim 3000 Handwash:
 The Maxim 3000 restroom is the most advanced design for a portable toilet. The interior walls are completely flat for easy cleaning and a wider appearance. The Maxim 3000 wash station was developed to conform to the exact shape of the unit to maintain its sleek appearance in a small footprint while delivering the greatest number of washes per fill.

Maxim 3000 Full Forearm Hand Wash:
 This extra long basin provides users more room to wash without using up valuable floor space. The 18 inch basin is designed for full fingertip to forearm clean up when a standard size basin just won't do. Retain the pleasant appearance of your restroom and give users added space to freshen up with this unique wash station.

TIME TO UPGRADE?

Upgrade your current Maxim 3000 hand wash station by switching to a full forearm wash basin. Simply remove the existing basin and replace it with a newer, larger basin in about 15 minutes. Adding a new basin gives your portable that fresh, clean appearance for a fraction of the cost of a new wash station.
