NON-STAINING DYE

No more purple hands and clothes! Safe-T-Fresh's new non-staining dye will leave you and your coworkers purple free at the end of the day. Safe-T-Fresh's new non-staining dye fills the tank with a dark rich blue color that hides waste and lasts a full seven days.

Don't worry we're not leaving any products behind. Right now the Safe-T-Fresh team is on track to convert all liquid and portion control deodorizers to the new non-staining dye formula by the end of 2022.

Portion Control

QUICK SCENTS

QuickScents packets are formulated to respond to changing levels of waste and temperatures based on the amount of active ingredients in each formula. QuickScents Plus has higher levels of active ingredients and is a great solution for high heat, heavy traffic situations. For moderate conditions, use QuickScents Regular, and if the weather cools down or you are doing same day service for a special event, use QuickScents Event.

QUICK BLUE

Safe-T-Fresh has created QuickBlue, the first dual-film effervescent packet! This extraordinary, patent-pending process uses a paper film on one side and PVA film on the other. The result is a packet that dissolves quickly and is dispersed throughout the tank by an effervescent action. And it works in brine!

BIO

The benefits of using Safe-T-Fresh BIO products go well beyond odor control and protecting the environment, eliminating waste build-up in tanks, hoses and pipes. The natural bacteria, when left in a tank or system, multiply over time and increase in effectiveness, breaking down solids into a liquid. Your tanks, hoses and pipes will no longer have hardened waste that produces continual odor. And, waste treatment plants will benefit from the added natural bacteria, which helps you obtain or maintain your current dump permits.

BIO deodorizers are available in packet and liquid form. Use the QuickScents Bio 30 gram packets for moderate levels of traffic and heat and the Bio 60 gram for high heat and traffic. For liquids, use Safe-T-Fresh 3K in moderate conditions and Safe-T-Fresh 5K for extreme conditions.

Most Environmentally-Friendly Portion Control

ECO BLUE

Announcing Eco Blue™! The MOST eco-friendly deodorizer to hit the market, from Safe-T-Fresh. A revolutionary new packet product with no hazardous materials that doesn't sacrifice fragrance or deep blue color. Ground breaking, patented malodor control technology eliminates the chemical process most current deodorizers use by naturally absorbing malodors. Eco Blue™ is biocide and bacteria free making it fully biodegradable and treatment plant friendly. Safe-T-Fresh's new Eco Blue™, will provide a worry free week of service and refreshing lavender scent, at any temperature. Wow your customers and protect the environment. Try Eco Blue™ today!

Liquid Deodorizers

STF

Many operators may not remember that Safe-T-Fresh was the very first environmentally safe deodorizer developed for the portable sanitation industry in 1970. Even then, Satellite was aware that protecting the environment was everyone's responsibility for the sake of future generations.

Today, Safe-T-Fresh is reformulated with the most advanced ingredients for fighting odors. Through research, testing and field observation, we've created a deodorizer that actually changes odor molecules instead of masking them. This revolutionary breakthrough in molecular technology continues the tradition of being environmentally safe, while delivering a much higher level of odor control. It is available in a variety of concentrations which allows you to choose what's best for your situation.

Long-Lasting Freshness

FRAGRANCE BOOSTERS

UNINAL BLOCKS

When customers begin to notice a strong odor in your restrooms, they may stop using your restroom services. To insure they have a pleasant experience, use fragrance boosters from Safe-T-Fresh. It only takes a moment and a few cents to improve your image and keep customers happy.

NON-PARA URINAL BLOCKS

High quality and slow dissolving, the urinal blocks stay solid. They will also bring a pleasant and powerful perfume. Free of paradichlorobenzene. Last 6 to 7 days.

Protects Equipment & Customers

WATER TREATMENT

Keep your handwash units clean and safe with Safe-T-Fresh's line of Water Treatment Products. Safe-T-Fresh knows how important it is to provide your customers with clean, safe water for handwashing. That's why Safe-T-Fresh has developed the Water Treatment Line, to help protect your customers and equipment.

ANTI-FREEZE

The Antifreeze is an additive to use with the Safe-T-Fresh toilet fluids or sachets to prevent your tank from freezing. The antifreeze, less corrosive than salt, is a concentrate that has proven its efficiency at lowest temperatures. Moreover, after pouring the product into your toilet tank you will find how easy it is to mix this product.

The quantity of Antifreeze to mix with water varies with temperatures.

AVAILABLE SIZES

- **USE AS SUPPLIED FOR TEMPERATURES OF DOWN TO -40C**

**Washing hands in freezing temperatures can cause your hands to cool rapidly. Limit the time your hands are exposed to freezing temperatures and cold water to avoid risk of frost bite.*

Soothing Soaps and Sanitizers

HAND CARE

Both our liquid and foaming hand soaps and sanitizers provide an economical way to maintain your restrooms, handwash stations and sanitizer stands. Our soaps contain soothing aloe that moisturize hands with each use. Refills are available in either 800 or 1000ml sizes.

For outfits that require a bit more, bulk solutions are available in two different types of soap and an FDA approved hand sanitizer. Satellite's 800ml refillable bottle makes servicing quick and easy when using Satellite's bulk solutions. See how you can save money, increase revenue and speed up service time when buying bulk.

TOOLS

Safe-T-Fresh has all the tools needed to get the job done. With a variety sizes in every tool, it's safe to say you will find what you need when you shop Safe-T-Fresh.

SUSTAINABILITY

Satellite Industries is committed to providing our customers high-quality products and services at reasonable prices. We actively promote a corporate culture that encourages innovation and respect for individuals, society, and the environment.

I LAST LONGER THAN YOUR NEW CAR.

I'm made from durable plastic and I stick around for at least 15 years. That's longer than the average lifetime of a car. At the end of my life, I can be completely recycled. Pretty sustainable, hu?
